**WILDGOOSE  
MINI CAMPER £51.99**

Spark's extensive collection of 1:43 Mini-derived specials now features the bizarre camper conversion by Wildgoose of Worthing. Built on a van platform, these motorhomes were produced in limited numbers, and this 'high-roof' version is modelled on the popular survivor now owned by BMW Classic, which was a recent star at the Goodwood Revival. The build quality is good, as with all Spark releases, but opening features would have been fun. A low-roof version in blue will also be produced.

Two-tone scheme inspired by goose wings

Fabulous detailing, with extended mirrors
